## Project Environment

: Ordre Virtual Platform.  
: Adobe Experience Manager, Front End Technologies,  
Joor Backend, SendGrid

## Project tools Role

: Jira, Confluence, MS Teams  
: Project Manager / Scrum Master

**Description:** Ordre is a highly curated community that is focused exclusively on apparel (women's and men's) and accessory brands in the luxury ready-to-wear industry. This includes both established and emerging designers that appeal to the consumer markets of high profile department stores, sophisticated multi-label boutiques and online retailers.

Due to the current world health crisis, Ordre has established an industry transformational tipping point and key strategic initiative as buyers can no longer travel to view Designers' collections. It is Ordre's belief that this pandemic will change the way the fashion industry embraces and uses virtual wholesale showrooms and remote selling / buying and it is this fact that this piece of work finds its basis.

Translate Physical showroom experience to a virtual showroom ensuring, as much as is feasible and practical, a unique and on brand experience for retailers when they are viewing and placing wholesale orders. Towards this, we took up Implementation of a Multi-Tenancy (ORDRE VIRTUAL) platform for Designers to create their Virtual Showrooms and enable their Designer's B2B wholesale business.
